LIST OF TABLES.....	iv
LIST OF FIGURES.....	v
LIST OF APPENDICES.....	vi
ABBREVIATIONS.....	vii

CHAPTER ONE

1. INTRODUCTION.....	1
1.1 Background and Problem Statement.....	2
1.1.2 Paracetamol dosage and Glutathione Depletion.....	5
1.1.3 Mechanism of paracetamol metabolism and Glutathione depletion.....	6
1.1.4 Paracetamol and Fertility in humans.....	8
1.2 Objectives of the study.....	9
1.2.1 Main Objective of the study.....	9
1.2.2 Specific Objectives of the study.....	9
1.3 Study Hypothesis.....	9

CHAPTER TWO

2. LITERATURE REVIEW.....	10
----------------------------------	-----------

CHAPTER THREE:

3. MATERIALS AND METHODS.....	28
3.1 Study design.....	28
3.1.1 Materials and animals.....	28

3.1.2	Drugs.....	28
3.1.3	Equipment.....	28
3.2	Experimental protocol	30
3.2.1	Sampling procedure/semen harvesting.....	30
3.2.2	Semen analysis/seminology.....	30
3.2.3	Appearance.....	31
3.3	Macroscopic evaluation.....	32
3.3.1	Motility	32
3.3.2	Gross motility	32
3.3.3	Individual motility and Progressiveness.....	32
3.3.4	Morphology.....	33
3.4	Slide preparation.....	34
3.4.1	Staining.....	34
3.4.2	Fixation.....	34
3.4.3	Histology	34
3.5	Measurement of glutathione.....	35
3.5.1	Cardiac Puncture.....	36
3.5.2.	Tail vein venipuncture.....	36
3.5.3.	Sample preparation.....	36
3.6	Determination of fertility.....	37
3.7	Statistics and data analysis.....	37-39

CHAPTER FOUR

4.	RESULTS.....	40
4.1	Semen appearance.....	41
4.1.2	Semen Liquefaction time.....	43-44
4.1.3	Sperm Motility.....	45
4.1.4	Sperm Progressiveness.....	47
4.1.5	Sperm Morphology Crude.....	48
4.1.6	Sperm Morphology Specific.....	49
4.2	Histology.....	50
4.3	Glutathione Measurement.....	51
4.3.1	Glutathione Concentration Specific.....	51
4.3.2	Glutathione Concentration Crude.....	52
4.4	Fertility results.....	53

CHAPTER FIVE

5.	DISCUSSION; SUMMARY; CONCLUSIONS; RECOMMENDATIONS.....	54-58
6.	REFERENCES.....	59-67
7.	APPENDICES.....	68-79
8.	PUBLICATIONS.....	80

LIST OF TABLES

Table	Title	Page
1	Experimental evidence ROS mediators in acquisition of human sperm fertilizing ability reactions.....	15
2	Mean (+_SE) sperm motility (%) from Rams for different storage times at 5oC.....	22
3	General appearance of semen from day 15 to day 90 of paracetamol treatment.....	41
4	Fertility results; libido, quantal pregnancy, % intromission, % mounts.....	53

LIST OF FIGURES

Figure	Title	Page
1	Metabolism of Paracetamol and Hepatotoxicity.....	7
2	Average liquefaction time in the two groups over 90 days.....	44
3	Average sperm motility as a percentage of the two groups over 90 days	45
4	Average percent sperm motility from the same rat over 90 days.....	46
5	Average semen progressiveness between the two groups.....	47
6	Average percentage specific sperm morphological abnormalities of the study group.....	48
7	Average percentage general sperm morphological abnormalities of the two groups.....	49
8	Average GSH concentration expressed in $\mu\text{mol/l}$ in the blood of the same rat over 90 days.....	51
9	Blood concentrations of GSH expressed in $\mu\text{mol/l}$ between the two groups over 90 days.....	52

LIST OF APPENDICES

Appendix	Title	Page
A.	Normal sperm.....	70
B.	Different sperm abnormalities viewed under the light Microscope.....	71
C.	Examples of abnormalities (Photomicrographs).....	72
C(i).	Normal sperm.....	73
C(ii) .	Photomicrograph of headless sperm.....	73
C(iii).	Photomicrograph of a sperm with bent tail.....	73
C(iv).	Photomicrographs of sperm with bent necks.....	74
C(v).	Photomicrographs of sperm with flattened heads.....	75
D.	Probable hepatic toxicity with increasing plasma paracetamol.....	76
E.	Motility and Progressiveness Scale key.....	77
F.	Specific data on % motility, progressiveness and glutathione concentration.....	78

ABRIVIATIONS

ROS	Reactive Oxygen Species
GSH	Glutathione (Reduced)
GSSG	Glutathione disulfide(oxidized)
PUFA	Polyunsaturated Fatty Acids
GR	Glutathione Reductase
NAPQI	N-acetyl-p-benzoquinone imine
BSO	Buthionine Sulphoximine
PHGPx	Phospholipid Hydroperoxide Glutathione Peroxidase
NADPH	Nicotinamide Adenine Dinucleotide Phosphate,(<i>reduced</i>).
SOD	Superoxide Dismutase
GPX 1	Glutathione Peroxidase
plGPx	Peritoneal Glutathione Peroxidase
O[•]2	Superoxide
H₂O₂	Hydrogen Peroxide
OH	Hydroxyl Radical
CDC	Centre for Disease Control
WHO	World Health Organisation
AIDS	Acquired Immune Deficiency Syndrome
HIV	Human Immune Virus
